

Professional Development Council

Official Training • 2008-2009

PDC, the basics and beyond....

The Southeast Kansas Education Service Center (Greenbush) and Kansas NEA support the need for quality professional development and are, once again, offering training for PDC members in Kansas.

PDC, the basics and beyond.....

The training will focus on:

- Deepening understanding of the regulations.
- Creating awareness of current professional development issues in Kansas.
- Deepening understanding of Application and Impact
- Supporting PDCs in development of initiatives that take staff to Application and Impact.
- Providing opportunities for all participants to interact and collaborate with other PDCs and within your own PDC.

For optimum impact, it is CRITICAL that PDC members, both teachers and administrators, attend this training to develop comprehensive staff development plans. Register your PDC team NOW!

“The key to success is to risk thinking unconventional thoughts. Convention is the enemy of progress. As long as you’ve got slightly more perception than the average wrapped loaf, you could invent something.”

-Trevor Baylis, Inventor

2008-2009 PDC Training
