Professional Development

Specialized Learning Services offers customized professional development opportunities tailored to meet the unique needs of your organization. Whether your district/cooperative needs targeted training for a small group of staff working with individual students or district-wide training, our team can support your professional learning needs. Our team appreciates the varying challenges presented to all staff, from district level administration to paraprofessionals, as they educate students with diverse learning needs. We are here to educate, train, and support you in this endeavor. Through our individualized assessment process, we will collaborate with you to define your goals and work to ensure that our services meet your specific and specialized needs.
