

Line Drawings

Delve into the elements of art of line, shape, texture, form, space, color, and value. Students will create an abstract line drawing and adding interesting colors and textures. Who said art has to look like anything specific to be beautiful??

Kansas College and Career Ready Standards for Visual Arts

- VA:Cr1.1.K. Engage in exploration and imaginative play with materials.
- VA: Cr1.2.K Engage collaboratively in creative art making in response to an artistic problem.
- VA: Cr2.1.K. Through experimentation, build skills in various media and approaches to art making.

The classroom teacher will need to provide the following materials for each student:

- One piece of white paper (copy paper is fine as is construction paper)
- Crayons
- Black marker

IMPORTANT!! - The students will need access to items with different textures from which they can do crayon rubbings on their papers. Suggested items include cinderblock walls, sand paper, corrugated cardboard torn to expose the corrugation in the center, paper doilies, combs, a weathered board, sole of an athletic shoe, etc. You can also hot glue small items like paper clips, washers, or pop can tabs to pieces of cardboard to create textured surfaces for the students.

Program Connection Information

Please use an external microphone (conference style) rather than the integrated one in the computer for the audio for your class and locate it centrally in the room. It can be difficult for the Greenbush teacher to hear the students using the computer microphone and therefore it reduces the interactive nature of the lesson. It is fine to use the computer webcam for your video source.

All classes will take place using Zoom desktop video. If your building is already set up to use a desktop video application with a computer, simply open a browser and enter <https://zoom.us/j/3662120241> in the URL space. You may need to download Zoom launcher software (free download) if you don't already have it. This needs to be done in advance of the lesson.

If using a Polycom video conferencing unit (or any legacy type video conferencing unit) to connect to a ZOOM conference, make sure the unit is in "encrypted mode" then dial the following IP on the internet: 162.255.37.11 or 162.255.36.11 and once connected, they will ask for a MEETING ID: enter 3662120241 (for Sharon at Science Center).

It's always a good idea to touch base with your district technology facilitator prior to your program to make sure all systems/equipment are in place and operational and that there aren't any firewalls in place that might prevent you from connecting to Zoom.

Once you connect, you will enter a Zoom waiting room. Your Greenbush teacher will admit you into the final meeting room.

If you have questions, please call Sharon Bertolio at Greenbush, 620-724-6281, or email at sharon.bertolio@greenbush.org (best method of contact).
