Live virtual CTE conference ends; recordings available until August

Even though the live February CTE Conference has ended, the conference is far from over. Attendees will have access until August 25 to over 100 recorded sessions that cover a variety of topics: Work-Based Learning, Individual Plans of Study, student-run businesses, labor market data, certifications, cluster-specific instruction, and much, much more!

~ IF you are already registered for the conference, log into your account on the [conference website](#), and on the left side you will see a "Resources" section. Click on the "Video Gallery," and you can access all of the recordings without having to sort through individual session descriptions.

~ If you are not registered but would like access to the recordings, it's not too late to sign up. Register [HERE](#) - deadline is March 31, 2021.

~ Presentations, links, and resources are included in each specific session description.

As you watch the recordings of the CTE Conference sessions, you will have the opportunity to complete a Google Form to receive a Certificate of Completion that may be used toward college credit or PD points.
