Professional Background

Pediatric Audiology Residency at Children's Mercy
Hospitals and Clinics | 2020-2021

Clinical Strengths

I have extensive experience working with pediatric populations and their families. One of my favorite things about being an audiologist is building rapport and cultivating meaningful relationships with my patients. I'm detail oriented, organized, and motivated to continue learning. I work well under pressure and like to keep busy and complete my work efficiently. I enjoy working on inter-professional teams, while respectfully conveying the importance of hearing health to ensure students and families have the tools they need to succeed.

Personal Background

I was born and raised in rural Wyoming, where I met my husband, Duncan. We moved to Lawrence in 2012 to attend KU for undergraduate and graduate school. We welcomed our daughter, Brooke, in 2019. We have two dogs named Jax and Cobie. We enjoy being outdoors hiking, camping, skiing/snowboarding, and snowshoeing.

Fun facts:

1. I was Miss Teen Wyoming 2011.
2. I was a gymnast and state champion cheerleader.
3. My favorite food is Italian.
4. You won't catch me without my planner and a cup of coffee.
