

# Specialized Learning Services

The Greenbush Specialized Learning Services (SLS) team provides a continuum of support to districts in the areas of Social-Emotional Learning; Crisis Preparation, Prevention, and Response; Supporting Students with Diverse Learning Needs; and Early Learning Initiatives.

Our team understands student needs do not present in isolation within the school setting. Creating a safe, supportive, and enriching environment is a multifaceted endeavor that requires explicit and intentional planning, implementation, and reflection. We bring experience and expertise to member districts as facilitators of this process.
